MOUNTAINEERING - MOUNTAINEERING BASICS

Duration: 1

Fitness: ▲▲▲▲▲ Technique: ▲▲▲▲▲

Price from: 185 €

The mountaineering basics is a discovery or a revision of the basic mountaineering techniques and skills: use of crampons and ice axe, elementary knots, walking roped together, roping. It will allow you to acquire or to review the basics essential for your future trips in the mountains. The ice basics on the Mer de Glace is also a great opportunity to learn more about the life of the glaciers (crevasses, moraines) and about global warming in the Alps.

From Montenvers (1913 m), reached by the Montenvers train, you will get to the Mer de Glace via the Glacier lift. We return to Montenvers the same way. This basic mountaineering activity is perfect for beginners or anyone wanting to improve their technique. No previous mountaineering experience is required.

The consequences of global warming in the Mont Blanc massif are the subject of much scientific work. The Compagnie des Guides de Chamonix counts among its members [Ludovic Ravanel](#) and [Bradley Carlson](#), two researchers specializing in this topic. As part of a partnership with the Town Hall of Chamonix and the [National Union of Mountain Guides \(SNGM\)](#), a [booklet on global warming](#) was published in July 2021.
