Branches, fallen leaves and natural materials: the children become little builders and design their own den in the forest. They learn to choose a spot, build together and use natural materials whilst respecting their environment.

Tuesday afternoon - Nature and sensory trail
Put on your little adventurers' boots! The children set off to explore the forest on a fun trail combining little challenges and sensory discoveries. Balance games, listening exercises, obstacle courses and an introduction to the basics of mountaineering: learning guide knots, discovering how to move in a rope team and experiencing mutual support amongst young mountaineers.

Wednesday afternoon - Trees in automn
The children discover the different species of trees in the valley and how they prepare for winter; they learn how to observe them and how to make a herbarium.

Thursday morning - Animal tracks
Footprints, feathers, fur and other clues: the children investigate to find out which animals live in the mountains and how to recognise where they've been.

Friday morning - Treasure hunt
Armed with a map, a compass and clues, the children set off in search of a hidden treasure. A fun adventure that teaches them how to find their way, observe their surroundings and work together.
