WEEKLY PROGRAM

Monday afternoon - Discovering birds
Chickadees, blackbirds or black woodpeckers: the children set off to discover the birds of spring. They learn how to observe them, discover how they build their nests, feed their young and forage for food. Listening games and little investigations help them to better understand the livesof birds, whilst learning to observe them without disturbing them.

Tuesday afternoon - Water, a adventure in the mountains
Where does the water in the streams come from? What can you find at the edge of a pond? The children set off to explore water in the mountains, observe its inhabitants and learn about the journey water takes from snow to stream.

Wednesday afternoon - My plant friends
The children explore spring wild plants, learn how to observe them and discover the traditional uses of some of them.

Thursday afternoon - Animal tracks
Footprints, feathers, fur and other clues: the children are investigating to find out which animals live in the mountains and how to recognise signs of their presence.

Friday afternoon - Treasure hunt
Armed with a map, a compass and clues, the children set off in search of a hidden treasure. A fun adventure to help them learn how to find their way, observe their surroundings and work together.

The program may be changed according to conditions and at the discretion of the professionals.
