### ITINERARY

#### Day 1 : Into the wild

After a short trip by public transport from Chamonix in the middle of the day, we take the direction of the Chailloux pastures (1400m). Our hike starts on the heights of la Flatière. During our walk, we look for the perfect camping spot to sleep comfortably. After a friendly evening listening to nature around the campfire, it is time for a cosy sleep under the stars.

#### Day 2 : Smooth way back

Wake up in front of the sun in your sleeping bag and enjoy the beginning of a new day. Without leaving any trace, we take down our tents and go back to the valley. We use this time to observe animal tracks witnessing their discreet presence. Make your way back to Chamonix in the middle of the afternoon.

## EQUIPMENT

We recommend you to pay particular attention to the choice of your equipment. It contributes greatly to the success of your stay. Weight is decisive: you always have to evaluate the ratio weight/comfort, to find the best compromise. In a general way, it is

better to pile up several light coats rather than wear one big clothing.

### **Hiking boots**

- Boots for snowshoeing should be warm and waterproof. They should also provide high ankle support. New boots should be worn a couple of times before.
- If your feet tend to get blisters easily, you can apply baby talc on dry feet in the morning before wearing your socks.

### **Back-pack**

- Minimum size 40 L (a back-pack with extra room is better than too small).
- Once everything is packed, make sure there is enough room to fit your picnic lunch.
- Although backpack covers are very convenient in bad weather, we recommend using a very large plastic bag as a pack-liner to protect your personal belongings from getting wet.

### **Clothing**

Underwear : avoid using cotton. Compared to technical synthetic material, it is heavier and it dries slowly. Wool is also getting popular amongst sportswear brands. Synthetic and wool are warmer ; they dry fast, and allow you to pack light.

### **Carrying weight**

Taking enough time to pack is essential, as you are going to carry every item for several days in a row. Avoiding extra weight can easily be done by packing your clothes tightly, placing heavy items at the bottom of the pack, and avoiding empty spaces. As a result weight is better spread throughout your back and weight impression diminished).

### **Daily needs**

- 1 synthetic long-sleeve shirt,
- 1 light polar fleece,
- 1 pair of Goretex pants, 1 long synthetic underwear to wear under your trousers,
- 1 a pair of wool socks,
- 1 Goretex jacket,

### **What you need for the entire trip**
