The Tour du Mont-Blanc, also called the 'TMB', is a hiking tour at mid-altitude. It crosses three countries and offers three different views of the Mont-Blanc massif :

ITINÉRAIRE

Day 1 : Val Montjoie

Our TMB starts from the top of the Bellevue cable car. The panoramic views on the Mont-Blanc mountain range, the Aiguilles Rouges, the Fiz and the Aravis massifs is stunning. Our path leads us to the famous suspended bridge of Bionnassay before a short uphill to the Col du Tricot. Descent towards Les Contamines to reach the Val Montjoie where we will spend the night in a hotel.

Elevation gain: 750m - Elevation loss: 1 300m

Day 2 : Beaufortain

We begin our hike from Notre Dame de la Gorge and its famous baroque church. At the Col du Bonhomme (2329m), we leave the Val Montjoie behind us and head to the Beaufortain. We reach now the Col de la Croix du Bonhomme (2479m) towards the southernmost tip of the Mont-Blanc massif. The trail rolls down to the hidden valley of Les Chapieux. 30 minutes transfer to the Chalet de Roselend above Roselend lake (no room available in les Chapieux).

Elevation gain: 1 3400m - Elevation loss: 950m

Day 3 : Val Veny

After a 40 minutes transfer, we head northeast and cross the French/Italian border at Col de la Seigne (2516m). From here, we can admire the breathtaking rock faces and the ice-covered summits of the south side of the Mont-Blanc mountain range. We finish our day by a quick visit of Courmayeur. Night in a hotel in Courmayeur. Diner in a restaurant.

Elevation gain: 730m - Elevation loss: 850m

Day 4 : Italian Val Ferret

From the hamlet of Villair Superior we follow the direction of Bertone mountain hut from where we head onto an impressive balcony trail. Here, the aerial view of the peaks of the Mont-Blanc massif is simply exceptional. The trail leads us to the famous Bonatti mountain, facing the Grande Jorasses the view from the hut is breathtaking. A nice path leads us back to the bottom of the valley. Transfer back to Courmayeur. Free dinner.

Elevation gain: 800m - Elevation loss: 800m

Day 5 : Swiss Val Ferret

After a transfer to Arnuva, the trail gives access to the Grand Col Ferret (2537m), the border between Italy and Switzerland. We enjoy the alpine meadows and the snow-covered summits of the Dolent or l'A Neuve. Descent to the Swiss Val Ferret and the village of la Fouly. Transfer to the French hamlet of le Buet. Night in basic hotel.

Elevation gain: 950m - Elevation loss: 900m

Day 6 : Chamonix Valley

A final hike up will take us to the Swiss/French frontier. From there, we can enjoy the Mont-Blanc and its magnificent glacier covered north faces. This fantastic background escorts our afternoon hike as we make our way down to the hamlet of le Tour. End of the trek. Transfer back to Chamonix.

A great multiday hike for people with trekking experience.

By a state qualified trekking guide with a maximum of 12 people in the group.

ACCOMMODATION

5 nights in basic hotel or inn (**in double/twin room**).

DOCUMENTATION

- Participants must have an insurance with repatriation cover. Cancellation insurance is highly recommended.
- Participants must also take valid ID with them.

ÉQUIPEMENT

Hiking boots

- Ankle supporting boots with notched technical rubber sole (i.e. VIBRAM).
- We strongly recommend wearing new boots to break them in before the hike.
- To avoid blisters, try rubbing baby talc on dry feet before using boots (sprinkling talc inside boot works too)

Back-pack

- Minimum size recommended 30 L (bigger is better than too small).
- Take out lunch should still fit after packing for the day.
- Bad weather precaution: pack covers are great to protect pack from rain or snow. We also recommend packing your belongings in a large and solid plastic bag (i.e. garbage bag) for a better protection in case of heavy rainfall.

Luggage

A solid travel bag (suitcase, framed duffle bag), weighing 33 lbs (15 kg) at the most. Wheels on bags are not recommended for « Chamonix-Zermatt » and « Gran Paradiso » hikes.

Clothing

Avoid using cotton underwear. Compared to technical synthetic material, it is heavier and it dries slowly. Wool is also getting popular amongst sportswear brands. Synthetic and wool are warmer; they dry fast, and allow you to pack light (you can easily wash a piece of underwear in the sink as you arrive at the mountain inn/hut. It'll be dry before you finish your first beer!)

DAILY NEEDS

1 long-sleeve shirt + 1 Tshirt (both synthetic)
1 polar fleece + 1 light down jacket (or a second fleece)
1 pair of shorts + 1 pair of hiking pants
1 pair of synthetic hiking socks
1 Gore-tex jacket (waterproof windbreaker)
1 poncho (large rain cover that fits over pack) or 1 back pack cover
1 pair of rain pants (although light Gore-tex pants are expensive, other types of light rain pants work too)
1 water bottle (1.5 quart to 2 quarts minimum)
1 pocket knife + 1 "spork"
1 warm hat, a pair of gloves
1 pair of telescopic poles

FOR THE ENTIRE HIKE
